

Short Term Mission Commission

Since the passage of the Short Term Missions resolutions at the 2009 Diocesan Convention, a group of dedicated clergy and lay people have worked to gather and create a "user friendly" way to approach short term missions. From the start, it was our goal to equip anyone regardless of past missions experience with the tools to have a successful trip while avoid the most common pitfalls and problems. We are very close to completing that goal!

Once finished, there will be a short term missions manual with a "quick start guide" focused around three goals of Team, Training and Trip that will be accessible in print, on CD, and on-line for the entire diocese. Additionally, the team has volunteered to come as available and equip those leading these trips. We look forward to the great reports of congregations and parishes developing, training and leading their teams where ever God directs in building His Kingdom.
